

THE NEXT AGE OF ENERGY EFFICIENCY: BOOSTING ENERGY RENOVATION RATES IN THE EU WITH P4P

[Click here to register](#)

Tuesday 27/09/2022 | 14:00-16:00

14:00	Welcome	
14:05	Presentation of SENSEI P4P model and how it can boost energy efficiency investments	F. Anagnostopoulos (IEECP)
14:20	Examples of the implementation of P4P model in the residential sector in the US	M. Santini (RAP)
14:30	DEBATE: the role and the impact for the ESCOs in the implementation of P4P model	L. Vanstraelen (BELESCO)
14:50	Attracting financing and investments towards energy renovation thanks to P4P	C. Bourgois (FACTOR4)
15:10	Sectoral situation	C. Bourgois
15:25	DEBATE: Who will drive the roll-out?	L. Vanstraelen
15:40	The link between P4P and other energy efficiency models: similarities and differences	C. Bourgois
15:55	Conclusion and goodbye	

This project has received funding from the European Union's Horizon2020 Research and Innovation programme under Grant Agreement No 847066
